

## Reproductive and HIV Education Opt Out

Because you have requested a Personal Curriculum in order for your student to exchange the required Health course for an additional English Language Arts, Math, Science, or World Language, you must also sign a waiver to “opt out” of the portion of the course that includes HIV/AIDS and other serious communicable disease, prevention education, and sexuality education.

If you wish to review the materials or curriculum content at any time, you may contact the school at (269) 926-3200 to arrange a time for your review.
